**BiO CELL +™ DRIVER**

Advanced multi-material construction with MyFly8™ adjustable loft technology delivers eight penetrating trajectories that maximize launch conditions for longer, straighter drives.

**ULTRALITE T.O.P. Technology (Thin, Optimized, Personalized):**
Venollum™ alloy crown reduces weight vs Titanium to deliver a 50% lower CG-to-Neutral vs. other all titanium drivers. * This provides a higher ball flight with lower back spin for longer distance.

* Compared to AMP CELL™ Driver

**MyFLY8 with SmartPad™ Technology:** Eight adjustable loft settings to maximize distance and manage trajectory for different weather and ground conditions.

**Forged E9™ BiO CELL Face:** New BiO Cells combined with E9 Face technology removes weight from the face and repositions it low and back to deliver higher MOI. This provides a larger effective Sweet Zone® and delivers longer and straighter drives on off-center hits.

**BiO CELL™ FAIRWAY**

Easily maximize your distance from the fairway, the rough, and even the tee with BiO Cell MyFly8™ Technology.

- **MyFly8 Technology with SmartPad™:** Eight adjustable loft settings to maximize distance, manage trajectory, and optimize yardage gaps.

- **High Strength Face Insert:** Forged thin, shallow high strength steel face inserts (Driver like construction) enables more face flex for faster ball speeds, longer distance, and higher trajectory.

- **Forged BiO Cell and E9™ Face Technology:** New BiO Cells combined with E9 Face technology removes more weight from the face and crown to reposition it low and back to deliver the best combination of a super low CG and high MOI.

**BiO CELL™ IRONS**

**Tungsten-Fueled Distance and Forgiveness**

: **Tungsten-Fueled Distance and Forgiveness**: Long and mid irons feature heavy tungsten in the heel and toe for more forgiveness. Short irons feature tungsten centered behind the hitting area for added distance and control.

: **Perimeter Undercut**: Largest unsupported face of any COBRA iron creates more face flex at impact for increased ball speed and extreme distance.

: **Bio Cell and E9 Face Technology™**: Enables more discretionary weight movement that creates a low CG and high MOI which provides more distance and extreme forgiveness.

BAFFLER® XL DRIVER

EASY TO HIT FAR. EASY TO HIT STRAIGHT. NO MATTER YOUR SWING SPEED.

: **Offset Design:** Offset design allows the golfer more time to square the face at impact for higher, straighter, more draw-biased shots.

: **Oversize Face with E9™ Face Technology:** COBRA’s largest driver face (5000 sq. mm) creates a larger “trampoline” across the face with significant face area above the CG for high launch and low spin drives.

: **High MOI:** Weight positioned low and back in the head to deliver high MOI/Forgiveness for more distance and directional control on off-center hits.

TOUR TRUSTY™ WEDGE

Tour inspired performance wedge designed to deliver versatility, feel and control.

- Larger Milled Grooves: 15% larger and wider CNC milled grooves create more spin and control trajectory even on the shortest of wedge shots.

- Variable Feed Rate Milling: Proprietary Variable Feed Rate (VFR) milling delivers optimized surface roughness across the face to maximize spin on all shots.

Available October 2013

WOMEN’S BiO CELL™ DRIVER

Unmatched distance with unmatched personalization. Easily tune your driver to maximize distance in super fresh colors.

: **MyFly8™ Technology**: Eight adjustable loft settings to maximize distance and manage trajectory for different weather and ground conditions.

: **SmartPad™ Technology**: Delivers a square face at address regardless of loft setting.

: **Forged E9™ BiO CELL Face**: New BiO Cells combined with E9 Face technology removes weight from the face and repositions it low and back to deliver higher MOI. This provides a larger effective Sweet Zone® and delivers longer and straighter drives on off-center hits.

WOMEN’S BiO CELL™ IRONS COMBO SET

Tungsten-Fueled Distance and Forgiveness with easy to hit hybrids.

: Tungsten-Fueled Distance and Forgiveness: Long and mid irons feature heavy tungsten in the heel and toe for more forgiveness. Short irons feature tungsten centered behind the hitting area for added workability.

: Perimeter Undercut: Largest unsupported face of any COBRA iron creates more face flex at impact for increased ball speed and extreme distance.

: BiO CELL Technology: enables more discretionary weight movement that creates a low CG and high MOI design allowing for more distance and extreme forgiveness.

WOMEN’S BAFFLER® XL DRIVER

Easy to hit Far. Easy to hit straight. No matter your swing speed.

- **Offset Design:** Offset design allows the golfer more time to square the face at impact for higher, straighter, more draw-biased shots.

- **Oversize Face with E9 Face Technology:** COBRA’s largest driver face (5000 sq. mm) creates a larger “trampoline” across the face with significant face area above the CG for high launch and low spin drives.

- **High MOI Weighting:** Positioned low and back in the head to deliver high MOI/Forgiveness for more distance and directional control on off-center hits.
